

Ultrasonography under PPP Model

On 2nd Feb, 2017, World college of Medical Sciences & Research, Gurawar (Jhajjar) hospital has entered in agreement with Civil Surgeon, Jhajjar to conduct ultrasound investigation of **Ante Natal patients** under **Public Private Partnership Model**.

Since 3rd Feb, 2017 we have started conducting ultrasonography of Antenatal patients referred **Civil Hospital, Jhajjar**.

WCMSRH is providing **free transport** to the patients from Civil Hospital, Jhajjar to our hospital and back to the Civil Hospital, Jhajjar.

Govt. of Haryana is committed to provide free ultrasonography to Ante natal patients of Haryana and so budget have been earmarked for this purpose (under PPP). Part of budget has been allotted to District Jhajjar.

Civil Hospital, Jhajjar alone cannot meet USG demand of all the pregnant ladies of Jhajjar district. We offered our services to share the load and entered in agreement under PPP Model to extend our services to the pregnant ladies (Ante natal ultrasonography) especially to the poor folk.
